PRODUCT OVERVIEW

The KPT-310-M is an entry level 2-way mono-amp screen speaker system for smaller sized auditoriums where cost effectiveness is the primary objective. Designed for mono-amp operation, the single wire run minimizes amplifier setup and maintains economy. The highly sophisticated passive processor assures optimal performance between components. Utilizing the new KPT-310-LF cabinet and new KPT-310-HF horn, this low cost system's performance maintains all the characteristics of Klipsch's legendary sound in smaller cinemas.

RECOMMENDED MINIMUM AMPLIFIER POWER

	KPT-310-M
AMP POWER RATING	500W into 4 ohms

DESIGNED AND MADE IN THE USA USING DOMESTIC AND IMPORTED COMPONENTS

In 1946, Paul W Klipsch, genius & maverick, hand-built his first loudspeaker in a tin shed with the intention of bringing live music into his living room. Remember great sound? We do, too. Today, Klipsch's cinema speaker enclosures are made in the USA, by proud craftsmen in Hope, Arkansas. Just like PWK intended.
